DICKINSON, ND 58601

General Land Use: Well/Facility Site

Affected Medium: Well/Facility Soil

Distance Nearest Occupied Building:

Distance Nearest Water Well:

Type of Incident: Valve/Piping Connection Leak

Release Contained in Dike: No

Reported to NRC: No

	Spilled	Units	Recovered	Units	Followup	Units
Oil	26.4	Barrels	26.4	Barrels	26.37	barrels

Brine

Other

Description of Other Released Contaminant:

Inspected: **Written Report Received:** 12/4/2014 **Clean Up Concluded:** 11/24/2014

Risk Evaluation:

No Immediate risk as standing oil was all contained and the snow helped keep the oil off the ground which will be cleaned today.

Areal Extent:

30' x 20' of oil on location. Light mist of 75' x 75' of which an area of 15'x15' was off location.

Potential Environmental Impacts:

No potential environmental impacts.

Action Taken or Planned:

Spill response team was dispatched immediately upon finding the spill. Spill cleanup efforts will conclude today. An investigation will take place regarding the broken valve and future actions will be implemented to attempt to prevent this from happening again.

Wastes Disposal Location: Recovered wastes will be disposed of at Clean Harbors.

Agencies Involved:**Updates**

Date: 11/25/2014 **Status:** Reviewed - Follow-up Required

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

On-location valve/piping leak sprayed off location. Followup is necessary.

Date: 12/3/2014 **Status:** Inspection

Author: O'Gorman, Brian

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

Arrived on location at 11:30. 13 degrees F, sunny, SE wind 0-5 mph. Observed site and took photos. It appeared as if the release occurred near the southeast corner of the well pad due to the presence of a front-end loader and petroleum-contaminated soils piled on a plastic sheet near the corner. Heavy equipment tracks also were noted in the southeast corner of the wellpad under approximately 1 to 3 inches of snow. No impacts to vegetation or snow were noted within the well pad or outside of the fence line. Spoke to company rep via cell phone while on location, and he verified release location and Clean Harbors as disposal location when the contractor removes the piled materials. No further followup is required.
